

# Company Overview

## Services & Facilities

## Colocation, Cloud, and Network Connectivity

### One Partner, One Contract, One Support Team

365 Data Centers is a leading network centric colocation provider operating 12 carrier-neutral data centers located in strategic, primarily edge markets. We offer a comprehensive suite of solutions that includes secure and reliable edge colocation, nationwide network connectivity, cloud compute and storage, DRaaS, BaaS, and business continuity services. Backed by our 24/7 customer support teams, our mission is to deliver best-in-class colocation, cloud, and network Infrastructure-as-a-Service (IaaS) enabling our customers to reduce costs, drive innovation, and improve their customers' experience.

Our data center locations include Boca Raton; Bridgewater (New Jersey); Buffalo; Chicago; Commack (New York); Detroit; Fort Lauderdale; Herndon (Virginia); Nashville; Philadelphia; New York City; and Tampa. Currently aggregating 242,000 square feet and 23 MW of power, these facilities are interconnected by a resilient, low latency, nationwide fiber network and are HIPAA, PCI DSS, SOC 1 Type 2, SOC 2 Type 2, SSAE 18, and ISAE 3402 certified.
